EDUCATION DEPARTMENT.

OFFICE OF THE INSPECTOR-GENERAL OF EDUCATION IN MYSORE, BANGALORE.

Notification D. No. 90 of 24-25, dated 1st June 1925.

With a view to regulate admissions to the various classes in High Schools, as far as possible according to the standard prescribed in Government Order No. E. 5350-3—Edn. 218-22-15, dated 8th March 1923, the enclosed statement showing the actual strength of pupils in the several classes of Government and Aided High Schools for boys in the State during the year 1924-25 and the maximum capacity of these classes in 1925-26 is published for general information together with the following additional instructions.

2. In the case of U. E. Classes, generally and of High School forms in places where sufficient accommodation is available, provision will be made wherever necessary for the admission of more than 40 pupils in each section and for more than 3 sections of a class. The strength of a section should not, however, exceed 50 ordinarily and the number of sections of any High School forms, should not exceed 4, under any circumstance. The number of sections of the U. E. Classes of Collegiate High Schools in the respective subjects, will be as given in the statement. In the case of those High Schools where the rooms are not large enough, the strength of each section will be between 35 and 40.

3. Parents and Guardians desirous of securing admission to their boys are requested to note that all applications for admission should be accompanied by a leaving certificate without which the applications will not be considered. Leaving certificates applied for by students in June will accordingly be treated as immediate and granted the same day by the Head Masters. The leaving certificates and other papers of candidates not selected for admission in any particular school will be returned to them immediately, so that they may apply for admission elsewhere. As far as possible, moffussil students qualifying for admission to the High School Classes should be made to join the school or schools in their own Districts.

4. To avoid delays and difficulties arising in the admission of pupils, it is desirable that the Heads of all High Schools in Bangalore and Mysore Cities, where there are more than one High School should meet together soon after the receipt of applications for admission at the beginning of the academical year and after due consideration of the accommodation and other facilities available in their respective schools, fix the number of pupils that each school can conveniently take in during the year and regulate admissions accordingly. The Head Masters of the Government Collegiate High School at these places will act as the conveners of these meetings. It is expected that no student that seeks admission will, other things being equal, be denied admission to one or other of the High Schools and that all students will as far as possible be admitted to schools near their places of abode.
